The Finnish Association for Nature and Environment Schools

- Staff: 3–4 people
- Funding: Ministry of Education and Culture (OKM) + grants

Photo: Satu Hiekko

Our aim

Children and youth

will grow up with a strong relation with nature and a sustainable way of life.

Photo: Hanna Risku

The Finnish Association for Nature and Environment Schools

- Coordinates the network

- Maintains the open MAPPAPA.fi service

- Organizes the BIG outdoor educational event ULOS-UT-OUT

Is the link between researchers and schools!

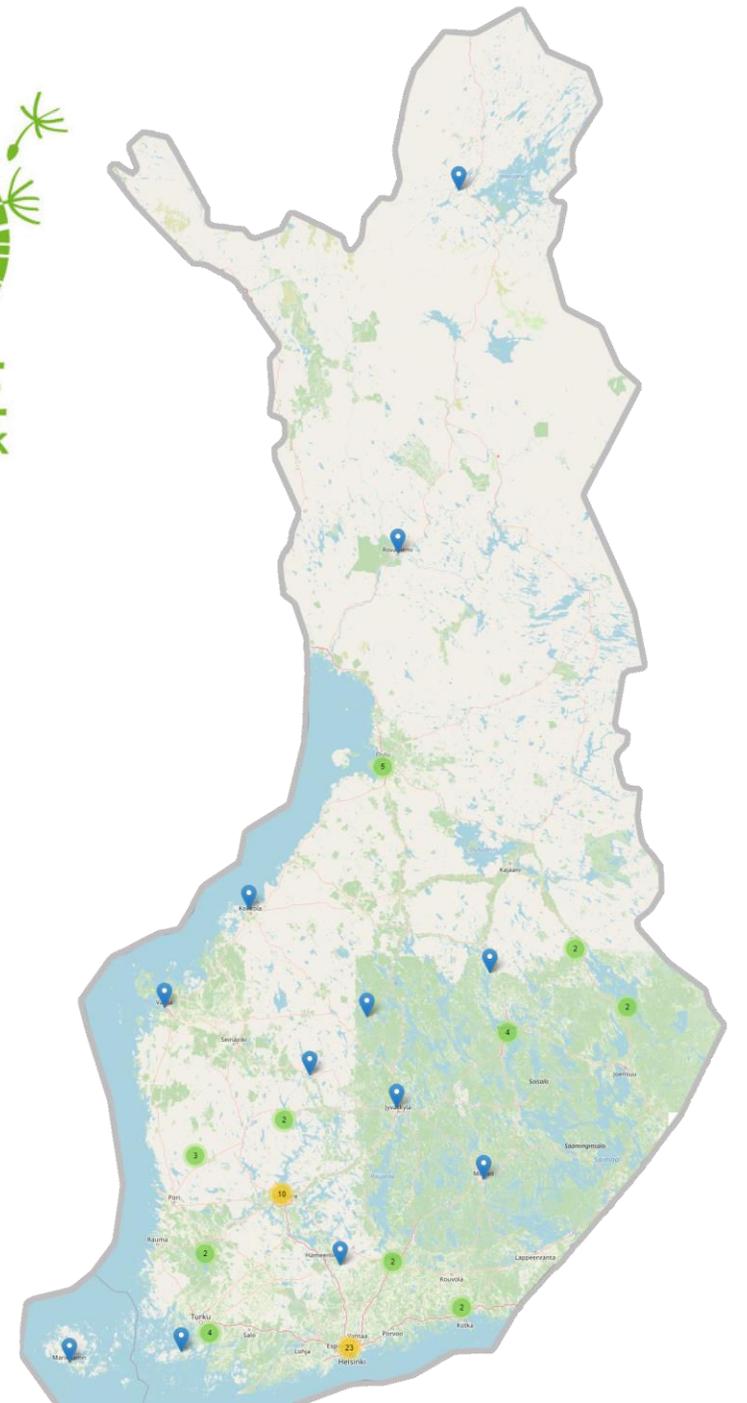

Power of LYKE-network!

Photo: Sanna Saari

LYKE-network

- Nationwide, over **50** centers
- Members of the Finnish Association for Nature and Environment Schools
- Offer environmental education (EE) services for schools and kindergartens on local level
- **Diversity:** Nature & environment schools, Visitor Centres of National Parks, Youth Centres, Camp School Centres, Museums, Zoos...
- Big or small, ambulatory or stationary

Example 1

- **SMALL** Nature School
- Governed by the city of Porvoo
- **Ambulatory**, goes to schools
- 1 employee

Photo: Pia Lindström

Example 2

- **BIG** Environment School **Polku**
- Part of the Reuse Centre (Helsinki area)
- **Ambulatory**, goes to schools
- 20 employees

Example 3

- MEDIUM size
- Nature School **Korento**
- Governed by the city of Tampere
- Permanent premises
- 2 employees

Photos: Laura Happo

Example 4

- **BIG** Center
- Finnish Museum of Natural History
- Part of the University of Helsinki
- **Permanent premises**
- **3 locations**
- 3-9 employees working with environmental education

In nature and environment schools...

Focus:
environmental
education

Yearly **200 000**
children with
their teachers

Training for
teachers and
other educators

The work is based
on the national
curriculum

Learning is
experimental

Certification
system for
centers

<https://www.luontokoulut.fi>

3 different levels of certification

1. **Test member** develops to meet the criteria
2. **Activity Center** develops **its own** activities
3. **Development Center** (highest level) develops also the environmental education activities of **its own region**

Auditing is done every 2nd year (self & peer-auditing).

- An open site, a material bank, a search engine, a sharing platform and a multifunction tool
- Offers tools for teaching
- Environmental | Sustainability | Biodiversity | Climate | Outdoor | and Science education | Future skills | Nature as a learning environment
